

BROCKHOUSE SERIES 800

TECHNICAL SPECIFICATION

PROJECT: -----

-
- Characteristics:** A top hung vinyl concertina partition with an internal steel pantograph frame. All systems made to measure to suit actual site dimensions and can be supplied either single wing, bi-parting or with floating units.
- Construction:** The 800 series consists of an internal framework of electro-galvanised 6mm steel rods and steel hinges at 1 metre centres.
- Operation:** Manual.
- Finish:** Fabric backed vinyl, available in 167 colours with a 5-year manufacturer's warranty. It is fully washable and has been treated with a water based acrylic solution, giving an extra stain, mould, mildew, fungi and bacteria resistant finish.
- Fire Rating:** Class '0' & class '1' to BS476 is standard incorporating an early fire warning vapour release feature.
- Opening Size:** A) _____ mm wide x _____ mm high
B) _____ mm wide x _____ mm high
C) _____ mm wide x _____ mm high
- Maximum Height:** 6000mm
- Maximum Width:** Unlimited
- Head Track:** SAA track – 33mm x 34mm
- Acoustic Rating:** 18dB – 8kgs per square metre
24dB – 11kgs per square metre
35dB – 15kgs per square metre
- Stack Dimensions:** Depth ~ 255mm
18dB – 1 / 6 width of leaf + 125mm
24dB – 1 / 5 width of leaf + 125mm
35dB – 1 / 4 width of leaf + 125mm
- Stacking:** Single wing / bi-parting/floating unit
- Edge Profiles:** SAA
- Locking:** Locking mechanisms are supplied as standard on all systems.
- Supplier:** **Brockhouse**
